## Make Your Own Grains Worth More Money

Our Custom Grinding Department at our elevator and seed cleaning plant is always at your service. Cheapest rates ever known for finest quality preparation—All Grain Grinding

### ONLY 10c PER 100 POUNDS

Lots must be of 500 pounds or more to secure this rate. ALL YOU HAVE TO DO IS WEIGH, DUMP YOUR GRAIN, drive under spout, or bring your sacks, and in ten to twenty minutes you have your load of 2,000 to 5,000 pounds of feed ground, ready to start home. No long tedious delays at our plant. We can grind any kind of mixture of grains for mixed feed feeding you may want. No Extra charge. Make your own Feeds Make You Money.

Egg Laying Mashs, Chick Mashs mixed properly to your own formulae at slight extra cost. We have all the high concentrates and specialties needed for mixing quality feeds of all kinds.

WE GRIND ANYTHING: Oats, Ear Corn, Shelled Corn, Rye, Wheat, Kafir, Head Grains, Fodder, Hay, Pea Hay; anything and everything in the feed line.

## “Hot Oil” Prices

Our catalog this year is small but mighty. We have passed on to you our ability in buying by making the cheapest prices ever known on garden seeds and other products. Look at these prices on necessities for every farmer, poultry raiser, dairyman and stockman.

Bring your own containers. If we must furnish container a charge of 16c per gallon must be added.

## The New Pasture Grasses

Much interest has been given the Lespedezas and some grasses suggested by the Department of Agriculture the past season. They all appear worthy of further trial; and some of heavy planting.

**KOREAN LESPEDEZA** did remarkably well last season under most exacting conditions. Plants 10-15 pounds per acre. Present value \$9.00 per 100 lbs., which is materially under last season's price.

**KOBE LESPEDEZA**, not so thoroughly tested but apparently of as good value as Korean.

**SERICEA LESPEDEZA** the giant type. Not tried out but is thought to be of real value. Seed very scarce. 50c per ounce, \$5.00 per pound.

**DALLIS GRASS:** A perennial grass of great value in Eastern and Central Oklahoma, and gives promise of naturalizing itself in this section and of becoming one of our native pasture grasses. Per pound 25c—10 lb. \$2.25—50 lb. or more at 20c per pound.

**AUSTRIAN WINTER PEAS:** One of the finest pea crops grown. This pea can be planted with oats, during February and March at 15 lbs. to 60 lbs. per acre. Many are planting this way and finding the method more satisfactory than planting alone in the fall. For this season's planting only \$5.50 per 100 lbs. Small quantities slightly higher.

## Our Feed Grinding Plant

Our Feed Grinding Plant is the only well equipped plant in northern Oklahoma. We grind any feed you have, mix it as you want it mixed. Ground feeds are the best feeds. They make you money. A trial of a load of mixed grains, ground, will convince you. Give it a fair trial.

## RHUBARB ROOTS

Our Mammoth Two Year Old Undivided Rhubarb roots are the finest grown. Every home garden should have at least one dozen planted in an out of the way place where they can be cared for. Do not neglect to use the luscious stalks the first season. They will live for years producing heavily and growing stronger. Market Gardeners have in our plants an unusual opportunity to get the best at reasonable prices. Roots, 2-yr., each 15c; Doz. \$1.00; 100, \$8.00. Ask for special prices on large quantities.

## New, Beautiful Annual Plants and Seeds

GIANT MARIGOLD—Orange and Lemon. Pkt. 10c.  
MARIGOLD—Guinea Gold. Pkt. 10c.  
VERBENA—Purple and Red. Pkt. 10c.  
DOUBLE NASTURTIUM—'Golden Gleam'. Sweet Scented. Pkt. 10c.

## ONION SETS

The real value of onion sets to the home and market gardener should be determined in this way: Sets offered by grocery stores usually have a count of fifty or sixty to the quart and they are measured to you. Our sets are firm, dry and are weighed one pound for a quart and the count runs 150-250 sets to the pound. IT IS MUCH CHEAPER TO BUY GOOD SEED-MEN SETS AT A LITTLE HIGHER PRICE THAN CHEAP POOR SETS AT ANY PRICE. COMPARE CHEAP SETS WITH OURS IN QUALITY WHEN BUYING.

SUDAN—Inquire price.

SPRING BARLEY—Market price.

## SOY BEANS

Rapidly becoming the finest crop for hay, pasture and feed purposes. A few acres will convince every farmer of their adaptability to the average Oklahoma farm and their great value.

We carry in stock the following varieties all at very reasonable prices. MUNG BEAN. HIGHLY RECOMMENDED FOR HAY AND PASTURE CROPS.

Virginia, among the best known.

Wilson

Laredo

Manchu

Morse

## COW PEAS

Another most valuable crop; suitable for hay pasture and seed crop. Easily grown and of far more value than most other hay crops. Do not neglect to plant a few acres at least New Era, a heavy hay and grain producer.

Whippoorwill, perhaps the best known but is no better for hay than Era.

Crowder, one of the finest for both hay feed and human use.

Black Eye (Use "NITRAGIN" INOCULANT ON ALL PEAS).

New Era

Whippoorwill

Black Eye

Crowder

## PEANUTS

Virginia Jumbo, Tennessee Red and Spanish. Prices on request. All reasonable.

NOTICE: We take ever precaution in seeds, plants, bulbs and nursery stock, to have them all true to name, description, purity and germination; but we give no warranty express or implied as to description, quality, purity or germination of any stock we sell; and we will not be responsible for the crop. If goods are not accepted on these terms they must be immediately returned, all charges prepaid. TREEMAN & MUNGER.

We carry the only complete stock of Field Seeds in Northern Oklahoma. Our facilities for cleaning, storing are the best.
